# CREATING HOMES OF ART

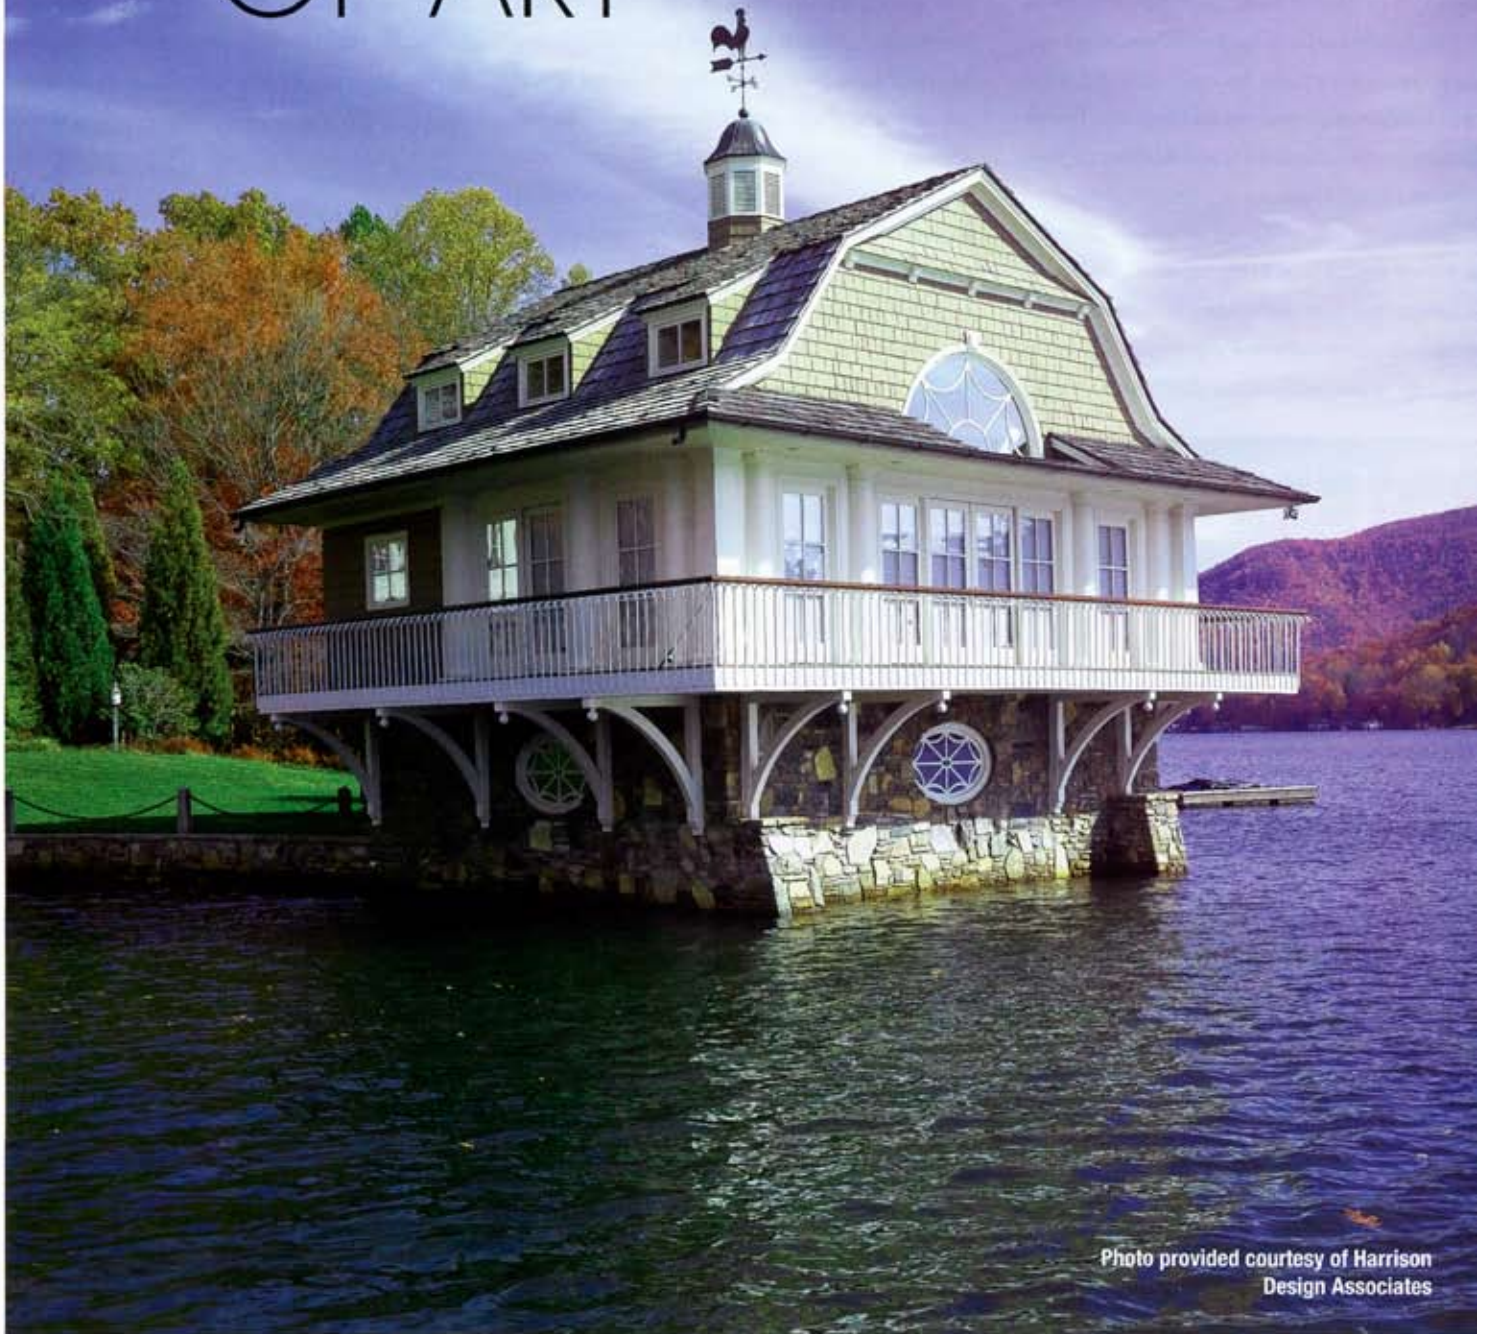

Photo provided courtesy of Harrison  
Design Associates

Since its founding in 1991, award-winning Harrison Design Associates has been dedicated to creating high-end custom residences, town homes and specialty commercial projects that are inspired by the best of traditional and modern architecture. From offices in Atlanta and St. Simons Island, Georgia, and Santa Barbara and Beverly Hills, California, Harrison Design Associates offers a complete range of services including site planning, architectural design, interior design, landscape architecture, and construction administration and management.

The firm creates an array of distinctive ancestral homes and public structures through the thoughtful study and application of traditional hierarchies, proportions, materials, and detailing. No matter the scope of the work, whether in scale or budget, the company shares a singular belief that a well-designed building is a work of art; it is an enduring investment and a place to express the client's individuality. Principals William Harrison AIA, Gregory Palmer AIA, Anthony Spann AIA, John Albanese AIA, and Richard Hatch Assoc. AIA, oversee all projects but understand that the success of our work is based on the collaborative effort of many people, from our talented design team, to the fine artisans who practice traditional building crafts, to our clients whose visions inspire endless new possibilities.

Harrison Design Associates strives for excellence in relationships with our clients, in the unique strengths of our team members and in the quality of every design we produce. Harrison Design Associates St. Simons Island office is managed by Chad Goehring Assoc. AIA. Our portfolio of coastal work ranges from charming Seaside inspired cottages to Mediterranean villas to sprawling beachside estates.
