## Passport to Italy

**C**alm colors and classic details transport the homeowners back to their Italian honeymoon every time they enter this bath. The room's pale color scheme ensures distinctive details stand out.

Arched alcoves embrace both the vanity and tub. At the vanity, oak cabinets add a warm contrast to the white-and-cream stones that serve as wainscoting on the walls and vanity drawer fronts and cover the floor. An ornate mirror hangs above the watery-hue mosaic-tile backsplash. In the tub alcove, an oil painting repeats the arboreal view of the national forest outside the bath's large windows.

A family member's 1950s Baker chair re-covered in white terry cloth adds softness to the room and a comfortable spot to take in the beauty both outside and inside while reminiscing about a faraway land. **DB**

**LEFT:** Mosaic tiles on the vanity backsplash hint at blues and greens and provide a backdrop for the classic faucet. The mosaic trim continues around the room.

**ABOVE:** The elegant bath is tucked into an arch-top niche. A special wax coating protects the dramatic painting from moisture.
